Dear parents and carers

Home Learning: Resources for students and families

As you know, a Learning Resource Library was made available to support parents and children learning from home during pupil free days. The ACT Education Directorate has been working hard to ensure this resource is as engaging and useful as possible, and today we want to share with you a **new and improved** resource library. You can access the updated webpage from the same link we have already shared with you, or via the [ACT Education website](#).

The resource library, now titled "[Home Learning: Resources for students and families](#)" not only has a brand-new look and feel, but we have curated the resources available and taken on feedback to ensure it is user friendly for students of all ages. The Home page now provides updates on recently added resources, featured activity ideas, featured podcasts and video links to encourage students physical exercise at home.

The site is then organised into three main components:

Resources

The resource library provides access and information around digital platforms and online resources as well as activity ideas that support students in their learning.

Family guides

The family guides support families to manage their child or young person's learning, and to stay healthy, safe, and connected whilst doing so.

Get involved (coming soon)

Get involved will provide an opportunity for students to get involved in various system wide initiatives such as the education directorates home learning challenge or limelight online.

We encourage you to check back in regularly for new materials for your child or young person to engage with.

Kind Regards

Daniel Mowbray
Principal
