## AT HOME LEARNING – Frequently asked Questions – 3<sup>rd</sup> Edition

Thank you to those families who have asked questions using the [UCHSK 2021 At Home Learning - Parent / Carer Questions form](#). Some of the questions relate to quite personal circumstances. Given the form is anonymous, if your question is not answered below, please email it directly to the relevant class teacher or attention Principal Daniel Mowbray, using the [UCHSKaleen.information@ed.act.edu.au](mailto:UCHSKaleen.information@ed.act.edu.au) email address.

### **If my child falls behind during At Home Learning, will there be support in place to “catch up” when face to face on campus returns?**

We anticipate that when students return to face to face learning, many students will have experienced varied challenges associated with At Home Learning. This will include some who have fallen behind in the classwork that was set during this time. Teachers will be responsive to these varying needs. This may include referrals to our Monday ‘Catch Up’ sessions, recommendations to attend Wednesday afternoon ‘Homework Club’ or more individualised academic or social and emotional support. If you are particularly concerned about your child’s individual circumstances, where these concerns relate to a specific class, please reach out to the class teacher. If it's a broader issue, then please contact the relevant Year Coordinator to discuss what support we may be able to offer moving forward.

### **Are the students expected to continue At Home Learning during school holidays?**

Students are **not** expected to continue with At Home Learning during school holidays. School holidays are a time for students and families to take a break from At Home Learning. Families are encouraged to focus on keeping themselves safe, and on their wellbeing. Students are encouraged to connect with their friends as much as they can (within the restrictions set out by ACT Health), to get outside and enjoy the beautiful spring weather and to put down their screens, which we have all been too connected to in recent times.
