Australian Curriculum Achievement Standard By the end of Year 10, students analyse how and/or why the elements of dance, choreographic devices, genre- or style-specific techniques, production elements, and/or technical and expressive skills are manipulated in dance they create and/or experience. They evaluate how dance works and/or performances in a range of styles and/or from across cultures, times, places and/or other contexts communicate ideas, perspectives and/or meaning. They evaluate how dance is used to celebrate and challenge perspectives of Australian identity. Students select and manipulate the elements of dance, choreographic devices and/or structure to choreograph dances. They demonstrate safe dance practice when choreographing and performing dance. They employ technical and expressive skills and genre- or style-specific techniques to enhance communication of ideas, perspectives and/or meaning when performing dance for audiences.

The Arts have the capacity to engage, inspire and enrich all students, exciting the imagination and encouraging them to reach their creative and expressive potential. Dance promotes confidence, self-esteem, fitness, creativity, personal expression and flexibility of the body and mind. With a focus on teamwork and accountability, students will learn, create, and perform dance together. The semester concentrates on the four elements of Dance: Space, Time, Dynamics and Relationships, as well as choreography and performance techniques. By the end of the semester students will have an enriched perspective of dance as an art form and have knowledge and technical skills as a dancer.

Absences from Class: Students who miss classes due to absence or excursions must negotiate with the class teacher to catch up missed work.

Use of IT in Class: A Google Classroom has been set up for this class. Students will be required to log into this Google Classroom regularly to access course material. Students must bring their Chromebook to all lessons, however, the use of these devices in class will be at the discretion of the teacher.

Homework: Any homework will be directly related to instruction and course requirements, will be assessed appropriately and may impact upon student grades. Examples of homework may include; catch up on missed classwork, revision of classwork, study for tests, assignment work, or preparation for a class presentation.

Late Work: Extensions may be negotiated with individual teachers before the due date

Plagiarism: Plagiarism is copying or using another's work and claiming it as your own. This includes copying, cutting and pasting text or using ideas directly from a text, the internet or some other source without appropriate referencing. The use of Generative AI to produce your work, or edit it so that it no longer reflects your work, is a form of plagiarism. If this happens, work may not be

graded, and students will be asked to discuss the assessment with the classroom teacher and Executive Teacher for that subject. If a teacher suspects a student may have plagiarised their work they may choose to assess the student in an alternative way, such as verbally or under test conditions. Parents may be contacted as part of this process.
